About this Publication	xvii
Acknowledgments	xix
Preface	xxi
Introduction	1
Overview of the Book	1
What bada Is – and Isn't	2
Just the Facts	3
Part I About bada	7
Chapter 1 The Mobile Difference	9
1.1 The Mobile Context	9
1.2 Characteristics of Mobile Software	11
1.2.1 Technological Differences	11
1.2.2 Differences Related to Usability and User Experiences	12
1.2.3 Differences in the Ecosystem	13
1.3 Mobile App Development Best-Practices	14
Chapter 2 bada Basics	19
What You Will Learn	19
What You Will Need	20
2.1 Your First bada Application	20
2.1.1 A Skeleton App	21
2.1.2 Project Structure	23
2.1.3 App Metadata	24
2.1.4 Build and Run	25
2.1.5 Standard Output	28

2.2	The Application UI	29
2.2.1	Frames, Forms, and Controls	30
2.2.2	Standard Elements of a Form – Indicator Bar, Title Bar, Soft Keys, Option Menu	31
2.2.3	Handling Events	32
2.2.4	Summary	33
2.3	UI Builder	33
2.3.1	A Simple UI	33
2.3.2	Form Properties	35
2.3.3	The Buddy List	38
2.4	Hooking Up Your Forms to Your Code	41
2.5	The App Icon	46
2.6	Becoming Multilingual in Three Easy Steps	47
2.6.1	Add New Languages	48
2.6.2	Add Text for Each Language	49
2.6.3	Use String Resource IDs in Your Code	50
2.7	From Idea to Published App	50
Chapter 3	Beyond the Basics	63
	What You Will Learn	63
	What You Will Need	63
3.1	Expanding the Application Skeleton	64
3.1.1	Being Event Driven	65
3.1.2	The Runtime App Lifecycle	65
3.1.3	A Note about Frameworks	69
3.2	Using the UI Framework	70
3.2.1	Control Hierarchy	70
3.2.2	More about UI Controls	71
3.2.3	More about Frame	75
3.2.4	More about Form	77
3.3	Using Graphics	78
3.3.1	More about Canvas	79
3.3.2	Graphics Primitives	80
3.3.3	Bitmaps and Images	83
3.3.4	Colours	88
3.4	The BuddyFix UI Revisited	89
3.4.1	Adding an OptionMenu	90
3.4.2	Adding a Soft Key	93
3.4.3	Populating a List	94
Chapter 4	bada Fundamentals	97
	What You Will Learn	97
	What You Will Need	97
4.1	Architecture Overview	98
4.1.1	bada Features	98
4.1.2	A Short bada History	99
4.1.3	The Layered Model of the bada Platform	101

4.2	bada Coding Idioms	103
4.2.1	C++ and bada	103
4.2.2	The Native System	104
4.2.3	Alternatives to Native	104
4.2.4	C++ Pitfalls	104
4.2.5	Native Idioms and Types Tutorials	106
4.3	bada Basic Functionality	117
4.3.1	Native Types	117
4.3.2	Using Strings, Characters, and Unicode	118
4.3.3	Using Buffers	121
4.3.4	Collection Classes	121
4.3.5	Using Dates and Times	124
4.3.6	Using Numbers	124
4.4	Security and the Privilege Model in bada	125
4.4.1	Privileges in bada	126
4.4.2	In Practice	127
Chapter 5	Exploring bada Services	129
	What You Will Learn	129
	What You Will Need	129
5.1	What are the Services?	130
5.1.1	Location Service	130
5.1.2	Social Service	130
5.1.3	Content Service	131
5.1.4	Commerce Service	132
5.1.5	Single Sign On	132
5.2	How It Works	132
5.2.1	Device-to-Server Interaction – bada APIs	132
5.2.2	bada Server and Third-Party Server Interaction with Open APIs	133
5.3	Services in Detail	135
5.3.1	Location as a Service	135
5.3.2	Social Network Service – All Connected	140
5.3.3	Content Service – Content is King	147
5.3.4	Commerce Service – Make Your Own Business	150
5.3.5	Component Setup	153
Chapter 6	bada Namespaces	157
	What You Will Learn	157
	What You Will Need	158
6.1	using Directives and Declarations	158
6.2	How This Chapter Is Organised	159
6.3	Namespaces in Detail	160

Part II	Recipes	211
Group 1	Fundamentals	213
	Recipe 1.1: Save to and Restore from the Registry	213
	Problem Description	213
	The Recipe	213
	Hints, Pitfalls and Related Topics	216
	Recipe 1.2: Use Error Handling in bada	217
	Problem Description	217
	The Recipe	217
	Recipe 1.3: Use Two-phase Construction and Leak-free Destruction	224
	Problem Description	224
	The Recipe	224
	Hints, Pitfalls, and Related Topics	228
	Recipe 1.4: Create an AppControl to Interact with a Base Application	228
	Problem Description	228
	The Recipe	228
	Hints, Pitfalls, and Related Topics	235
	Related Recipe	236
	Recipe 1.5: Create and Use a Timer	236
	Problem Description	236
	The Recipe	236
	Hints, Pitfalls, and Related Topics	239
	Related Recipe	239
	Recipe 1.6: Parse XML Content	239
	Problem Description	239
	The Recipe	239
	Hints, Pitfalls, and Related Topics	243
	Related Recipe	243
	Recipe 1.7: Get Dates and Times	243
	Problem Description	243
	The Recipe	243
	Hints, Pitfalls, and Related Topics	250
	Related Recipe	250
Group 2	UI Basics	251
	Recipe 2.1: Add a Form to a Frame-based App	251
	Problem Description	251
	The Recipe	251
	Hints, Pitfalls, and Related Topics	255
	Recipe 2.2: Add Soft Keys to a Form and Get Actions	255
	Problem Description	255
	The Recipe	255
	Hints, Pitfalls, and Related Topics	258
	Related Recipes	258

Recipe 2.3: Add an Options Menu to a Form and Get User Selections	258
Problem Description	258
The Recipe	258
Hints, Pitfalls, and Related Topics	263
Related Recipes	263
Recipe 2.4: Add a Simple Button Control to a Form	263
Problem Description	263
The Recipe	264
Hints, Pitfalls, and Related Topics	268
Related Recipe	269
Recipe 2.5: Pop Up a Message Box with Dismiss	269
Problem Description	269
The Recipe	269
Hints, Pitfalls, and Related Topics	270
Recipe 2.6: Pop Up a Keypad and Get Input from It	272
Problem Description	272
The Recipe	272
Hints, Pitfalls, and Related Topics	279
Related Recipe	279
Recipe 2.7: Get Touch Events	280
Problem Description	280
The Recipe	280
Hints, Pitfalls, and Related Topics	285
Related Recipe	286
Recipe 2.8: Get Multi-touch Events	286
Problem Description	286
The Recipe	286
Hints, Pitfalls, and Related Topics	290
Related Recipe	290
Recipe 2.9: Create a Custom List Control	291
Problem Description	291
The Recipe	291
Hints, Pitfalls, and Related Topics	298
Related Recipe	298
Recipe 2.10: Implement a Form Manager	298
Problem Description	298
The Recipe	298
Hints, Pitfalls, and Related Topics	309
Related Recipe	309
Recipe 2.11: Get Soft Key and Hard Key Events	309
Problem Description	309
The Recipe	309
Hints, Pitfalls, and Related Topics	312
Related Recipe	313

	Recipe 2.12: Use a Web Control	313
	Problem Description	313
	The Recipe	313
	Hints, Pitfalls, and Related Topics	319
	Related Recipe	319
Group 3	Extended UI and Sensors	321
	Recipe 3.1: Use Gesture Input and Motion UI	321
	Problem Description	321
	The Recipe	321
	Hints, Pitfalls, and Related Topics	326
	Related Recipe	327
	Recipe 3.2: Get Device Orientation from the Magnetometer (Compass)	327
	Problem Description	327
	The Recipe	327
	Hints, Pitfalls, and Related Topics	331
	Recipe 3.3: Get Readings from the Tilt Sensor	332
	Problem Description	332
	The Recipe	332
	Hints, Pitfalls, and Related Topics	336
	Recipe 3.4: Detect a Face from Video	337
	Problem Description	337
	The Recipe	337
	Hints, Pitfalls, and Related Topics	341
	Related Recipe	342
	Recipe 3.5: Recognise a Face	342
	Problem Description	342
	The Recipe	342
	Hints, Pitfalls, and Related Topics	346
	Related Recipes	346
Group 4	Multimedia Content	347
	Recipe 4.1: Use Bitmaps and Images	347
	Problem Description	347
	The Recipe	347
	Hints, Pitfalls, and Related Topics	351
	Related Recipe	351
	Recipe 4.2: Draw Graphics Primitives	352
	Problem Description	352
	The Recipe	352
	Hints, Pitfalls, and Related Topics	356
	Related Recipe	356
	Recipe 4.3: Open the Camera and Get and Display Live Frames	356
	Problem Description	356
	The Recipe	356

	Hints, Pitfalls, and Related Topics	360
	Related Recipes	360
	Recipe 4.4: Use an Overlay Panel	360
	Problem Description	360
	The Recipe	361
	Hints, Pitfalls, and Related Topics	365
	Related Recipe	366
	Recipe 4.5: Record Audio from the Microphone or Audio Input Device	366
	Problem Description	366
	The Recipe	366
	Hints, Pitfalls, and Related Topics	369
	Recipe 4.6: Play a Sound	369
	Problem Description	369
	The Recipe	370
	Hints, Pitfalls, and Related Topics	373
	Related Recipes	374
Group 5	Networking	375
	Recipe 5.1: Create a Network Connection	375
	Problem Description	375
	The Recipe	375
	Recipe 5.2: Use Secure Sockets	379
	Problem Description	379
	The Recipe	379
	Hints, Pitfalls, and Related Topics	383
	Recipe 5.3: Establish Normal and Pipeline Connection Modes for HTTP Sessions	383
	Problem Description	383
	The Recipe	383
	Hints, Pitfalls, and Related Topics	387
	Recipe 5.4: Use Bluetooth Profiles	388
	Problem Description	388
	The Recipe	388
	Recipe 5.5: Use Non-blocking and Blocking TCP and UDP Sockets	395
	Problem Description	395
	The Recipe	395
	Hints, Pitfalls, and Related Topics	401
	Recipe 5.6: Set Up an Ad Hoc Wi-Fi Network	401
	Problem Description	401
	The Recipe	401
	Hints, Pitfalls, and Related Topics	406
	Recipe 5.7: Query a DNS Server	406
	Problem Description	406
	The Recipe	406

Group 6	Maps and Location	411
	6.1 Get Geographic Data from a Provider and Show a Map	411
	Problem Description	411
	The Recipe	411
	Hints, Pitfalls, and Related Topics	413
	6.2 React to Location Changes	414
	Problem Description	414
	The Recipe	414
	Hints, Pitfalls, and Related Topics	415
Group 7	Services and Social Networking	417
	7.1 Create Content on the bada Server	417
	Problem Description	417
	The Recipe	417
	Hints, Pitfalls, and Related Topics	421
	7.2 Use the bada SNS Gateway to Access a Social Network Service such as Facebook	422
	Problem Description	422
	The Recipe	422
	Hints, Pitfalls, and Related Topics	429
	Related Recipes	430
	7.3 Send a Tweet from Twitter	430
	Problem Description	430
	The Recipe	430
	Hints, Pitfalls, and Related Topics	434
	Related Recipe	434
	7.4 Upload a Photo to Facebook	434
	Problem Description	434
	The Recipe	434
	Hints, Pitfalls, and Related Topics	438
	Related Recipes	438
	7.5 Get Notes from Facebook using RESTful APIs	439
	Problem Description	439
	The Recipe	439
	Hints, Pitfalls, and Related Topics	446
	Related Recipes	446
	7.6 Use the BuddyService to Add a Buddy	446
	Problem Description	446
	The Recipe	447
	Hints, Pitfalls, and Related Topics	450

Part III	Appendices	451
	Appendix A Downloading and Installing the bada SDK	453
	Appendix B A UML Primer	459
	B.1 Class Diagrams	459
	B.2 Sequence Diagrams	460
	Appendix C A Software Engineering Model for Mobile App Development	463
	Some Mobile Software Engineering Best-practices	464
	Phase 1: Feasibility and Economic Efficiency Analysis	465
	Stage 1.1: Requirements Engineering	465
	Stage 1.2: Design Drafting	466
	Stage 1.3: Early Prototyping	466
	Stage 1.4: User Acceptance Testing	466
	Phase 2: Software Product Realisation	467
	Stage 2.1: Requirements Reviewing	467
	Stage 2.2: Design Detailing	467
	Stage 2.3: Defining Test Cases	467
	Stage 2.4: Programming	468
	Stage 2.5: Testing	468
	Stage 2.6: User Acceptance Testing	468
	Phase 3: Distribution	469
	Stage 3.1: Marketing	469
	Stage 3.2: Preparing for Deployment	469
	Stage 3.3: Product Maintainance	469
	Index	471
